- Installs in half the time of other baffles

FEATURES

- Increased horizontal projection
- 30° Inclination angle
- Integrally molded bracket
- Rugged construction
- Corrosion resistant
- 5 Year warranty

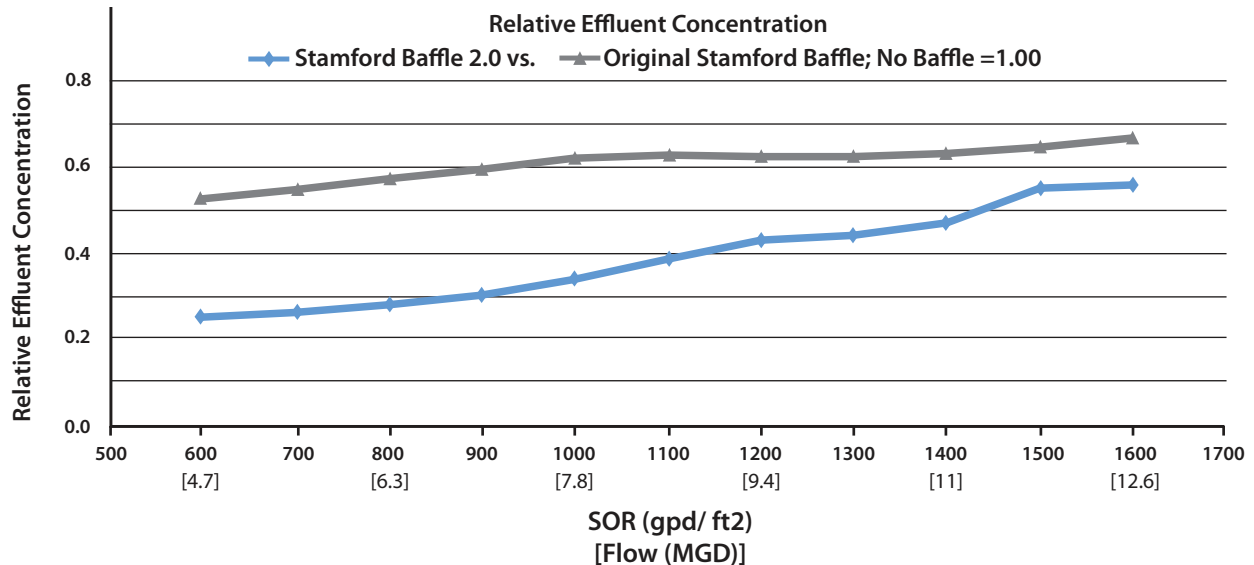

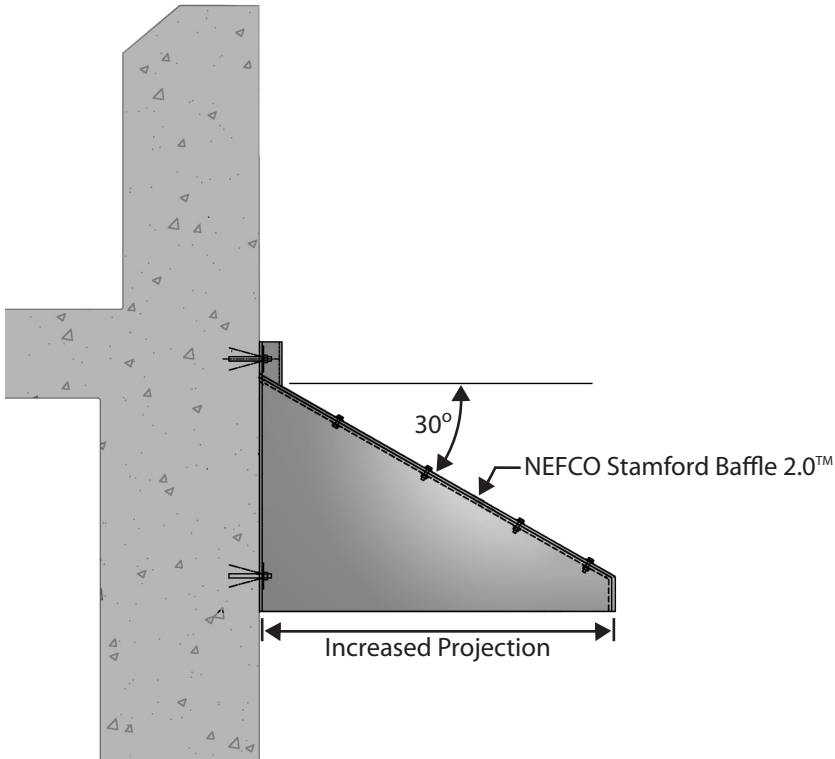

THE CLEAR DIFFERENCE.

THE FIRST IMPROVEMENT IN DENSITY CURRENT BAFFLE PERFORMANCE IN 30 YEARS

THE STUDY

NEFCO has recently completed a multi-year CFD Baffle Design Study that led to the development of Stamford Baffle 2.0, which is over 30% more effective than the original 45° Stamford Baffle. The new 30° baffle will improve clarifier performance by reducing overflow TSS as much as 70%!
